CAREER OBJECTIVE

I am a Web Developer with over two (2) years of proven experience at Bitxbase Technology and freelancing in helping companies create and maintain a better code base for reusability. Passionate about learning and development with a desire to apply skills on a development team. Eager to tackle more complex problems and continue to find ways to maximize user efficiency.

WORK EXPERIENCE

Freelancer

Web Developer

📅 Dec 2021 - current   📍 Remote

- Improved experience working remotely, including my ability to manage time effectively, collaborate online, and maintain clear communication with clients.
- I have crafted websites for several businesses using my skill sets to solve their business problems.
- I have long-term relationships with clients, due to my ability to retain clients through excellent service and reliable project delivery.
- I have made contributions to the web development community by contributing to open-source projects, and attending forums.

Front-End Web Developer

Bitxbase Technology LTD

📅 July 2022 - Oct 2023   📍 Lagos, NG

- Participated in the initial wave of developers learning and implementing the Vue.JS library.
- Worked with design, product, and back-end teams to create 4 web products.
- Rewrote HTML to meet industry and company standards for SEO and Accessibility. This drove a 600% increase in users by appearing on the first page of Google search results.
- Mentored 2 new intern front-end developers on team in expanding JavaScript, Vue, and WordPress skillset.

Coding Club Instructor

Golden Foundation School

📅 Feb 2022 - July 2022   📍 Lagos, NG

- I updated and align the school's curriculum with industry standards and emerging technologies.
- Improved soft skills such as communication, adaptability, and problem- solving, which are crucial for effectively conveying complex technical concepts to students.
- I prepared lectures by attending workshops, conferences, and online courses which enhanced my own skills and knowledge to impact to the students.

PROJECTS

Perfumistashop

Contributor

- The eCommerce app was built for a business using Laravel.
- It is aimed at online sales of varieties of original perfumes and deodorants.
- Visit here www.perfumistashop.com.

Computer Based Test App
Creator

- Utilized Vue.js and SCSS for building the user interface while Pinia was used for the state management.
- This app has random questions for different users, the user is accessed after the exercise and also has a revision section that displays correct answers after taking the test.
- The app aims to help individuals prepare for Vue.js exams, job interviews, or to test their knowledge of Vue.js.
- Visit here Vue.js CBT App

Company Website
Creator

- The UI was made with HTML, SCSS, Bootstrap, and Vanilla JavaScript, to provide a seamless and user-friendly interface.
- The website is aimed to put the business out there for individuals who needs a trusted source for headphones, gadgets and mobile accessories.
- Visit here Stecolls Global

getLinked Hackathon
Creator

- This is a 5-day hackathon project that was developed using Vue.js, SCSS, and various Vue.js libraries, including Vue Router for navigation, Bootstrap for the accordion component, Vueuse/Motion for animations, and Vue Transition for transitions.
- Visit here getLinked Hackathon

eCommerce
Creator

- Utilized HTML, SCSS, Bootstrap, and Vanilla JavaScript to build the user interface.
- The app aims to help make shopping online easy and user-friendly for customers.
