Lagos, Lagos

Summary

Innovative and results-driven Senior Software Engineer with over 10 years of experience in designing, developing, and maintaining complex software solutions. Proven expertise in full-stack development, architecture design, and team leadership. Adept at collaborating with cross-functional teams to drive project success and exceed client expectations. Passionate about staying current with emerging technologies and implementing best practices to deliver high-quality software.

Skills

C#, Typescript, Java, Kotlin, Node.js, Angular, React, React Native, HTML5, CSS, Full Stack Develoment, Architecture Design , Agile Methodologies, Cloud Computing (AWS, Namecheap), Microservices Architecture, RESTful APIs, Database Design and Optimization, DevOps Practices(Azure & Git), Mobile Development

Experience

Senior Software Engineer

Verbena Logic
01/2021 - Present

Software Development · Developed and implemented software solutions for various business needs using C#, Node, Typescript, Angular, React, Kotlin, Java, Micro services, MongoDB, MSSQL, Azure DevOps technologies. · Performed code reviews to ensure quality standards were met by development teams. · Mentored newly hired software engineers through routine coaching and training opportunities. · Provided technical guidance to junior developers on best practices in software engineering. · Managed multiple projects simultaneously while meeting tight deadlines. · Designed, developed, tested, and deployed high-quality applications utilizing Agile methodology. · Utilized version control systems such as Azure DevOps for tracking changes in source code over time. · Reviewed software documentation to maintain adherence to industry standards and prevent discrepancies. · Analyzed system logs for troubleshooting production issues in a timely manner

Senior Software Engineer

Xputer Technologies
01/2013 - 01/2024

Software Development · Worked closely with team members to design and develop robust solutions that meet clients' requirements for functionality, scalability, and performance Designed, modified, and implemented technology solutions for clients. · Worked to meet the specific needs of clients through groundbreaking software solutions. · Managed multiple projects and initiatives throughout the entire project life cycle; held full responsibility for project staffing, design/architecture, modeling, and execution. · Shared best practices and systems architecture knowledge with team members and line consultants to improve project outcomes. · Mentored newly hired software engineers through routine coaching and training opportunities. · Provided technical guidance to junior developers on best practices in software engineering. · Utilized version control systems such as Azure DevOps for tracking changes in source code over time. · Developed and implemented software solutions for various business needs using C#, Node, Typescript, Angular, React, Kotlin, Java, Micro services, MongoDB, MSSQL, Azure DevOps technologies. www.enhancv.com

Projects

- Device Life cycle for MTN NG (**Backend**: C# and MongoDB, **Frontend**: Angular)[https://dlcm.orlitstaging.net/]
- Student Portal for University of Ilesha(**Backend**: C# and MongoDB, **Frontend**: Angular) [https://admissions.studyorbit.net/home],[http://admin.studyorbit.net/]
- Fantasy Premier League (**Backend**: C# and MongoDB, **Frontend**: React Native)[http://fantasypl.techlivate.com/]

- Applause ERP (**Backend**: C#, Elastic search and MSSQL, **Frontend** :React Typescript)
  [https://pfs.applauseerp.com/]
- Ticketing App (**Backend**: Node Typescript ,NestJs and MongoDB, **Frontend**:Angular and Tailwind css)
- Test Platform for Nigerian breweries (Silver light)
- Yudala mobile app (**Android**:Java **IOS**:Objective-C)
- YUVEND window form retail app (JavaFX)
- Endear Workflow (C#, MSSQL, **Frontend**: Angular)
- Table4Two reservation (**Android**:Kotlin, **IOS**: Swift, **Backend**:Node Typescript and MongoDB, **Frontend**: Angular)
- Konga Food mobile and web app (**Android**: Kotlin, **Frontend**: Angular)
- Konga Health web API (**Backend**: Node Typescript, Mongo DB with D365 integration)
- ATEN web front end and web API (**Backend**: Node Typescript and MongoDB, **Frontend**: Angular, bootstrap,)
- TDSuperAPP mobile app (**Mobile**: Kotlin, **Backend**: C# and MSSQL)

Education

Computer Science

Ladoke Akintola University of Technology • Ogbomoso, OYO
01/2011
Bachelor of Technology(B-Tech)
